# 🪟 Windows User Guide: Offline PDF Q&A System

### Quick Start Guide

### What You Need First

1. **Download Ollama**: Go to https://ollama.com and install it
2. **Get AI Models**: Open Command Prompt and run:

   ```
   ollama pull mistral
   ollama pull mistral-large
   ```

3. **Download the App**: Save `main.py` to a folder like `C:\pdf-qa-app`

### Using the Application

### Step 1: Start the App

- **Double-click** `main.py`
- Or open Command Prompt, navigate to your folder and run: `python main.py`

### Step 2: Choose Interface

```
Choose interface:
1. GUI (Graphical Interface)  ← Recommended
2. Console (Text Interface)
```

**Type `1` and press Enter**

### Step 3: Load Your PDF

1. **Click "Browse"** button
2. **Select your PDF file** (any size works)
3. **Click "Process PDF"**
4. **Wait for processing** (first time takes longer)
5. **Look for "Ready!"** message

### Step 4: Ask Questions

- **Type your question** in the text box
- **Press Enter** or click "Ask"
- **Read the answer** in the chat area

## Example Usage

**Good Questions:**

- "What is this document about?"
- "Summarize chapter 3"
- "What are the main conclusions?"
- "Explain the methodology"

**Sample Conversation:**

```
You: What is the main topic of this PDF?
Bot: This document focuses on advanced machine learning techniques for natural language p

You: What are the key findings?
Bot: The key findings include: 1) Improved accuracy by 15%...
```

**Your PDF conversations are automatically saved and work completely offline!**

*For 1000-page PDFs: Just be patient during first processing - it's worth the wait!*
